Acquisition of terminal operating systems provider Navis

- Navis is #1 vendor in marine terminal logistics solutions market
- Its global customer footprint is in over 50 countries at 200+ terminals
- The company has 20+ years of expertise in developing solutions to complex supply chain execution problems
- Navis has ~350 employees providing worldwide sales, services and support
- 2011 sales were around EUR 50 million
Cargotec to strengthen position in heavy cranes

• Cargotec and its long-term manufacturing supplier in China, Jiangsu Rainbow Heavy Industries (RHI), plan to establish a joint venture to provide leading heavy crane solutions globally, expand delivery capacity and grasp growth opportunities in the Chinese and global markets.

• Cargotec’s ownership would be 49 percent and the value of Cargotec’s equity investment approximately EUR 30 million.

• In addition, Cargotec plans to strengthen its strategic partnership with RHI by becoming an owner in the company. Cargotec will acquire a 49 percent interest in China Crane Investment Holdings Ltd, which currently owns 18.75 percent of RHI shares, for approximately EUR 50 million.

• The transaction is subject to the relevant regulatory approvals, which are expected to be received in the coming 6–8 months (from late July 2011).
Cargotec to evaluate listing of Cargotec Marine on the Singapore Exchange to secure further growth

• Potential listing would strengthen Cargotec Marine’s business presence in Asia and secure profitable growth.

• Already today more than 70 percent of Cargotec Marine’s sales are generated in Asia-Pacific.

• A strong presence in Singapore could open new business opportunities especially in offshore.

• It is currently envisaged that Cargotec Corporation would own the majority of Cargotec Marine, which would remain consolidated to Cargotec Corporation following the possible listing.

• The Board of Directors expects the evaluation be completed by the end of the third quarter 2012.
