Becoming the leader in intelligent cargo handling
Why invest in Cargotec?

Our target: To become the leader in intelligent cargo handling through digitalisation, services and leadership

Several favorable megatrends support our growth prospects

- Transformation from equipment provider into a leader in intelligent cargo handling
- Growing services and software business increase stability of our business
- Unique position to benefit from the growth prospects in port automation and software

Every 4th container in the WORLD is moved by Kalmar solution.

Every other ship in the WORLD has MacGregor equipment on board.

Financial targets
- Grow faster than the market
- Increase service and software sales to 40% of net sales, min. EUR 1.5 billion in 3-5 years
- Target 10% operating profit and 15% ROCE in 3-5 years
- Target gearing <50% and increasing dividend in the range of 30-50% of EPS, to be paid twice a year

Contact details: firstname.lastname@cargotec.com | Hanna-Maria Heikkilä, Vice President, Investor relations | Pekka Rautiainen, IR manager | www.cargotec.com/investors

Targets announced in September 2017

Cargotec
in brief
Strong global player with well-balanced business

Sales:
EUR 3,250 million
EBIT: 8.0%

Sales split: new equipment vs service and software

Kalmar
Sales: EUR 1,598 million
EBIT: 8.3% (EUR 133.1 million)

Hiab
Sales: EUR 1,084 million
EBIT: 14.5% (EUR 157.2 million)

MacGregor
Sales: EUR 571 million
EBIT: 1.9% (EUR 10.6 million)

Strengths we are building upon
Leading market positions in all segments
Strong brands
Loyal customers
Leading in technology

Sales by business areas

MacGregor 18%
Kalmar 49%

Sales by geographical area

AMER 32%
EMEA 44%
APAC 24%

Figures have been restated according to IFRS 15 and are calculated by using the new definitions for the equipment, service and software businesses announced in March 2018.
Key competitors
Cargotec is a leading player in all of its business areas
Currently two businesses performing well

Investment highlights
Investment highlights: Why invest in Cargotec?

1. Technology leader and strong market positions, leading brands in markets with long term growth potential
2. Transforming from equipment provider into the leader in intelligent cargo handling
3. Growing service & software business and asset light business model are increasing stability
4. Capitalizing global opportunities for future automation and software growth
5. On track for profitability improvement and to reach financial targets
1. Technology leader and strong market positions, leading brands in markets with long term growth potential

Global megatrends
- Globalisation and trade growth
- Urbanisation
- Growing middle class

Growth drivers
- Container throughput growth
- Construction activity
- Automation
- Digitalisation

Competitive advantages
- Strong brands
- Full automation offering
- Technology leadership

Market position
- #1 or #2 in all major segments
2. We are transforming from equipment provider into a leader in intelligent cargo handling

- **2013**
  - Product leadership
  - Good equipment company
  - Product R&D drives offering development and higher gross profit

- **2018**
  - Services leadership
  - World-class service offering
  - Connected equipment and data analytics building value on data
  - Significant software business

- **2020**
  - Leader in intelligent cargo handling
  - 40% of the sales from services and software
  - More efficient and optimised cargo handling solutions

**MUST-WINS**

- Lead digitalisation
- World-class service offering
- Build world-class leadership
3. Growing service & software business and asset light business model are increasing stability

Service and software* sales

<table>

Asset light business model with a flexible cost structure

- Kalmar and Hiab: efficient assembly operation
- MacGregor: efficient project management and engineering office: > 90% of manufacturing and 30% of design and engineering capacity outsourced
- No in-house component manufacturing

Next steps to increase service and software sales:

- All new equipment connected by 2018
- Build on Navis position as industry leader
- Increase spare parts capture rates
- Boost service contract attachment rates

*) Software sales defined as Navis business unit and automation software

Year 2017 figures have been restated according to IFRS 15 and 2013-2017 figures are calculated by using the new definitions for the equipment, service and software businesses announced in March 2018

LTM=Last 12 months (Q3/17-Q2/18)
4. Capitalizing global opportunities for future automation and software growth

Industry trends support growth in port automation:
- Only 40 terminals (out of 1,200 terminals) are automated or semi-automated currently globally
- Ships are becoming bigger and the peak loads have become an issue
- Increasing focus on safety
- Customers require decreasing energy usage and zero emission ports
- Optimum efficiency, space utilization and reduction of costs are increasingly important
- Shortage and cost of trained and skilled labour pushes terminals to automation

Significant possibility in port software:
- Container value chain is very inefficient: total value of waste and inefficiency estimated at ~EUR 17bn
- Over 50% of port software market is in-house, in long term internal solutions not competitive
- Navis has leading position in port ERP

Customers consider their automation decisions carefully
- Shipping line consolidation
- Utilisation rates of the existing equipment base
- Container throughput volumes
- Efficiency of the automation solutions

Automation creates significant cost savings*

<table>
<thead>
<tr>
<th>Cost Category</th>
<th>Savings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Labour costs</td>
<td>60% less</td>
</tr>
<tr>
<td>Total costs</td>
<td>24% less</td>
</tr>
<tr>
<td>Profit increase</td>
<td>125%</td>
</tr>
</tbody>
</table>

* Change when manual terminal converted into an automated operation
5. Clear plan for profitability improvement and to reach financial targets

**Growth**
Target to grow faster than market
- Megatrends and strong market position supporting organic growth
- M&A potential

**Service and software**
Targeting service and software sales 40% of net sales, minimum EUR 1.5 billion in 3-5 years*

**Balance sheet and dividend**
Target gearing < 50% and increasing dividend in the range of 30-50% of EPS, dividend paid twice a year

**Profitability**
Target 10% operating profit and 15% ROCE in 3-5 years*
Higher service and software sales key driver for profitability improvement
Cost savings actions:
- 2018 EUR 13 million (Lidhult assembly transfer in Kalmar)
- 2018 EUR 13 million in MacGregor
- 2020 EUR 50 million (indirect purchasing and new Business Services operations)
Product re-design and improved project management

**Sales and operating profit** development

| Year 2017 figures have been restated according to IFRS 15 | LTM=Last 12 months (Q3/17-Q2/18) |

Flexible and scalable Navis TOS software
Kalmar’s operating environment

**Kalmar**
Provides integrated port automation solutions including software, services and a wide range of cargo handling equipment.

**Navis**
TOS coordinates and optimises the planning and management of container and equipment moves in complex business environments.
Navis provides also maritime shipping solutions:
- Stowage planning
- Vessel monitoring
- Loading computer
- Route planning

**XVELA**
The collaboration platform serving the needs of ocean carriers, terminals and their shipping partners.

**Bromma**
Industry leading spreader manufacturer.
XVELA provides benefits to ocean carriers and terminal operators

- Today’s container supply chain is a fragmented and siloed framework
- Information sharing between parties is not optimally structured
  - Forms of communication today include email, phone calls, EDI, paper plans
  - Problems: incomplete data, errors, information not available on time
- In-house developed XVELA is a many-to-many platform to solve these issues
  - Real-time stowage collaboration
  - Port-to-port visibility and collaboration
  - Synchronisation of planning between carriers and terminals

Benefits of XVELA:
- Faster vessel turn times
- Operational efficiencies
- Cost savings
Services provide our biggest medium term growth opportunity

Previously announced cost savings programmes proceeding

- EUR 50 million annual group-wide savings from 2020 onwards
  - EUR 15 million cumulative savings at the end of Q2/18
- EUR 13 million in 2018 (MacGregor)
  - EUR 5 million savings in H1/18
- EUR 13 million in 2018 (Kalmar)
  - Relocation of assembly operation completed
  - EUR 4 million savings in H1/18
- Product redesign and project management improvement continues in 2018
Group wide EUR 50 million cost savings programme proceeding faster than expected

WHY
- Investments in common systems as enabler
- EUR ~600 million addressable indirect cost base

WHAT
- Reductions in indirect purchasing spend (EUR 30 million), and more efficient support functions (EUR 20 million)

HOW
- Central procurement organization to drive indirect procurement cost and efficiency
- Establishing support function services in Sofia
- Automation in Finance, HR, information management and procurement

RESULTS
- EUR 10 million savings realised in 2017 and additional EUR 5 million in H1/18

Expected savings compared to 2016 cost level, MEUR

- Indirect procurement
- Support functions

Including business services centre in Sofia
We have established Cargotec Business Services in Sofia to improve support function efficiency by EUR 20 million

- Savings from consolidation, outsourcing of certain activities, labour arbitrage and robotics
- Scope: Finance, Human Resources, Information Management and Indirect Procurement services primarily from Sofia, Bulgaria
- Good progress in establishing Cargotec Business Services
  - Cargotec Business Service (CBS) centre in Sofia, Bulgaria officially opened 30 January 2018
Targeting EUR 1.5 billion service and software sales in 3-5 years

Cargotec service sales total EUR 907 million in 2017
- Spare parts the biggest category, around 50% of total service sales
- Maintenance around 30% of total service sales

- **Spare parts**
- Maintenance contracts
- Crane upgrades
- Used equipment

- **Spare parts**
- Installation
- Used equipment

- **Spare parts**
- Maintenance
- Projects and Voyage Data Recorder
- Lashing equipment, after sales

Year 2017 figures have been restated according to IFRS 15 and 2017 figures are calculated by using the new definitions for the equipment, service and software businesses announced in March 2018
M&A strategy focusing on bolt-on acquisitions

Key acquisition criteria
Contribution to 15% ROCE target
Recurring business
Increase the potential for services through larger installed base and increased presence
Group gearing long term target of 50%

M&A focus by business area:
Kalmar
Expand service footprint and software offering
Hiab
Expand geographical presence, service and product offering
MacGregor
Focus on distressed assets and software and intelligent technology

Net debt and gearing

Acquisition of EFFER to support Hiab’s global offering

**Effer in brief**
- Global leader in the heavy cranes segment
- 2017 sales around EUR 71 million and operating profit EUR 6 million
- Distribution network of over 100 dealers covering 60 countries globally

**Strategic rationale**
- Effer complements Hiab’s loader cranes portfolio and expands the offering in heavy cranes
- Leverage Hiab’s global service network to boost Effer service sales
- Strengthen Hiab’s position in Effer’s core market areas

**Transaction highlights**
- Enterprise value EUR 50 million
- Acquisition is subject to regulatory approvals expected to be received in H2 2018
Acquisition of TTS marine and offshore business announced 8 February 2018

Strategic rationale

Combination of two highly complementary businesses producing greater scale and diversification
- By acquiring TTS marine and offshore business, Cargotec will strengthen MacGregor’s portfolio and market position in key areas in cargo and load handling markets.

The acquisition will strengthen MacGregor’s service growth potential and service installed base.

Position in China through strategic joint ventures with Chinese state owned ship building companies.

Unlocking potential significant synergies
- Based on preliminary estimates, potential cost synergies are estimated to be around EUR 30-35 million on annual level and are expected to be reached within 3 years from closing.
TTS overview

TTS provides equipment for the marine and offshore industries through subsidiaries in 15 countries

TTS Group’s main products are a wide range of cargo handling and offshore cranes, RoRo access systems, hatch covers, winches and related services.

The company’s service business includes spare parts, maintenance, inspections, modernisation, conversion and training. With a worldwide workforce of around 930 employees, TTS has more than 50 years of experience in the marine industry.

The group has subsidiaries in Belgium, Brazil, China, Germany, Greece, Italy, Korea, Norway, Poland, Singapore, Sweden, UAE, USA and Vietnam. TTS operates mainly through three 50/50 owned joint venture companies in China.
TTS product portfolio

Transaction consideration will be covered by Cargotec’s available cash and financing

More than 2/3 of TTS shareholders supports the transaction and have committed to vote in favor of the deal in TTS Group’s Extraordinary General Meeting. Furthermore, more than 2/3 of convertible bondholders have made the same commitment, if any of their bonds are converted to shares prior to the Extraordinary General Meeting.

The acquisition is subject to regulatory approvals from competition authorities, which are expected to be received during the second half of 2018.
Shaping the portfolio

Two divestments made during Q2/18

Divestments

- Siwertell and Kalmar Rough Terrain Center
- Both outside of Kalmar’s core areas of container ports, heavy industry and distribution

Revaluation of RHI shares, non-cash EUR 30 million charge
Our target is to reach 10% EBIT in the next 3-5 years

- 7.5% Q2/17 LTM* EBIT**
- 1-2% Service & Software
- 0-1% Kalmar & Hiab equipment growth
- 0.5-1% Growth in Kalmar's large projects and MacGregor equipment
- 0% Continuing innovations (R&D investments)
- ~1-2% Improve cost efficiency, leveraging sales

EBIT target in the next 3-5 years

* LTM = Last 12 months (Q3/16-Q2/17)
** Excluding restructuring costs

August 2018
Highlights of Q2 2018 – Strong growth in orders received

23% growth in orders received
- Growth in Kalmar and Hiab
- Service orders increased by 16%

Solid growth in service sales continued

Operating profit* decreased
- Kalmar’s operating profit declined due to less favorable business mix
- Negative impact from currencies for Hiab continued
- MacGregor at black despite sales decline

Restructuring costs of EUR 35 million weakened the result

*) Excluding restructuring costs
Market environment in H1 2018

Growth in number of containers handled at ports continued
- Customers’ decision making related to automation solutions is slow and starting mainly with phased investments

Construction activity on good level
- Good development continued in Europe and the US

Market improved in merchant sector, but orders remained below historical levels
- In offshore, interest level has increased, but activity remains on a low level
Cash flow from operations weak due to supply chain challenges and lower advances received

Cash flow from operations

Sustainability
Sustainability is a great business opportunity

We serve an industry, which produces the majority of emissions as well as GDP in the world
- Inefficient industry with potential to improve

Our vision to be the leader in intelligent cargo handling also drives sustainability
- Increasing efficiency and life-time solutions

We are in a position to be the global frontrunner, setting the sustainability standards for the whole industry
- We are ready to shape the industry to one that is more sustainable
Sea Freight Transport is by far the most sustainable transport mode in terms of emissions

Compared to transportation of goods

- by trains, sea freight emits ~2-3 times less emissions
- by trucks, sea freight emits ~3-4 times less emissions
- by air cargo, sea freight emits ~14 times less emissions
Sustainability is our competitive advantage

Sales account for around 18%* of the total revenue in 2017:
Significant R&D and digitalisation investments drive the growth of offering for eco-efficiency

Systems efficiency
- Visibility to identify inefficient use of resources and fuel
- Software and design system

Efficiency for environmental industries
- Offering to support the operations in environmental industries
- Cargotec solutions for environmental industries

Emission efficiency
- Technology to enable fuel and emission efficient offering
- Products with features to decrease fuel usage and avoidance of maritime hydraulic oil emissions

Resources efficiency
- Service enabling the extended usage of products or new applications
- Product conversions and modernizations

*Adjusted figure according to IFRS15, not audited. Audited figure before adjustment 19%
Key to more sustainable cargo handling business is solution development

Waste in cargo handling business due to inefficiencies ~17 billion euros

~2.5 mil barrels (1.8 mil CO2 equivalent tonnes) of fuel savings enabled by Cargotec port equipment solutions during past 6 to 10 years

19 mil CO2 in shipping industry annually For moving empty containers

~31 900 CO2 eqv. tonnes of emissions from Cargotec factories annually
Cargotec sustainability managed with clear policies, processes and KPIs on varying areas

- Cargotec is a supporter of UN Global Compact and other major international sustainability initiatives
- We have a clear governance on sustainability issues with Board of Directors overview on the subject
- Safety is our key priority and we have clear improvement program to further decrease our current IIFR rate of 6.1
- Human rights supply chain management and energy on the agenda in 2018
Performance highlights 2017

- 82% of employees conducted the code of conduct e-learning tool
- Permanent Code of Conduct panel and case investigation process
- Supplier code of conduct sent to all strategic suppliers
- Offering for eco-efficiency 18% of total sales

**INDUSTRIAL INJURY FREQUENCY RATE**
- Cargotec IFR**
- Number of lost time injuries

*IFR and number of injuries cover Cargotec production sites
**Number of injuries per million hours worked

**SOCIAL RESPONSIBILITY INDEX**
- Employee view about the company social responsibility

**CERTIFICATION COVERAGE**
- Share of certified sites’ sales volume of the total sales volume

**COMPASS* COMPLETION RATE**
- Employee engagement survey

---

81% of employees conducted the code of conduct e-learning tool. Supplier code of conduct sent to all strategic suppliers. Offering for eco-efficiency 18% of total sales.
Kalmar appendix
The current replacement market size for key terminal equipment is EUR 1 billion annually and the market is expected to double in the next decade.

Average lifetime of type of equipment:
- STS - 25 yrs
- RTG - 15 yrs
- SC - 8-10 yrs
- RS/ECH/TT – 8 yrs

Replacement after lifetime of equipment

Source: Drewry reports: Global Container Terminal Operators 2001-2016
Note: 1995-2000 capacity is estimation based on the assumption that the utilisation rate has been between 70-72% in that period. 2016-2020 forecast based on Drewry’s Global container terminal operators report, published in August 2016.
Consolidation leading to five dominant container terminal operators in 2020

24 Global Terminal Operators’ total forecasted capacity increase 2015-2020 is 125 Mteu, increasing 3.1% p.a to 892 Mteu by 2020

Terminal operators consolidating, recent M&A activity:
- COSCO and China Shipping merged
- APMT bought Group TCB
- CMA CGM bought APL
- Yildrim bought Portugese Tertir group and the company is also eyeing Ports America

Consolidation leading to five dominant container terminal operators in 2020

Global container throughput and capacity development

Throughput and capacity development over the years. The graph shows a steady increase in throughput from 2002 to 2018, with a slight decline in the utilisation rate. Source: Drewry Container terminal operator annual review, 2002-2016.
60% global of container throughput is expected to take place in APAC in 2018

Global container throughput expected to grow 6.5% in 2018
- APAC +7.0% (+31 mteu)
- EMEA +6.3% (+12 mteu)
- AMER +5.0% (+5 mteu)

→ 63% of growth will come from APAC

Source: Drewry: Container forecaster Q2 2018
Three alliances controlling about 80% of global container fleet capacity

Most likely in mid 2018 there will be only 9 major global shipping lines

- **April 2017**

  - The arrows indicate changes, confirmed or planned, through M&A or JV over the last 18 months. Hanjin bankrupt. Hyundai isn’t currently officially part of any alliance, but formed a cooperative relationship with 2M.
  - Ocean Network Express (ONE) launch April 2018.
  - COSCO Shipping’s planned acquisition of OOCL expected to completed by the end of June.
  - Analyse excludes Zim, PIL and Wan Hai.
